

NON-FINANCIAL ASPECTS OF BUSINESS ACTIVITIES

Within the scope of our 2019 Sustainability Report, we report on the non-financial aspects of our business activities. The focuses of our sustainability reporting in terms of content result from the materiality analysis performed in 2017, on the basis of which we identified the key aspects for our company. These remain valid.

To ensure our sustainability activities have a comparable and transparent framework at all times, we have aligned our reporting with the reporting standard of the German Sustainability Code (DNK). Please refer to the Declaration of Compliance with the German Sustainability Code for further information and details on our sustainability management. We have published this Declaration of Compliance, as well as our sustainability report, on our website at <https://mlp-se.com/sustainability>. You can also find the sustainability report as part of this Annual Report.
